Hello! I am a full-stack software engineer, focused on innovative front-end development. I enjoy writing code that looks as good as it functions. Transitioning from a career in the ever-evolving airline industry, I'm able to adapt and learn quickly in new situations and rely on great communication to accomplish goals in a team.

Technical Skills

- Javascript
- React JS
- Node.js
- Express
- EJS
- Sequelize
- PostgreSQL
- HTML
- CSS
- Sass

Education

General Assembly

Seattle, Wa
Dec 2020

Full-stack software engineering immersive student in an intensive, twelve-week, 450+ hour program focused on product development fundamentals, object-oriented programming, MVC frameworks, data modeling, and team collaboration strategies.

University of Wisconsin - Stout

Menomonie, WI
May 2011

Bachelors of Fine Art in Multimedia Design

Projects

▶ **Blanched Almond** | Javascript, HTML, CSS
A fun and interactive game designed to improve the knowledge of 147 colors that can be called by name within CSS
- ▶ Utilized Document Object Model (DOM) to dynamically generate each level, randomizing the color order within each set
- ▶ Managed player feedback by adjusting opacity of incorrect answers and updating score

▶ **SoulSip'n** | Node.js, Express, PostgreSQL, HTML, Sass with Sierra Library
An app to help users seeking health benefits for drinking different teas.
- ▶ SQL database to allow registered users to save preferredbenefits
- ▶ Access a join-table relating benefits with teas, allowing a single benefit to display all teas with this benefit
